The **Collegiate Computers Program** (CCP) is a pilot program being sponsored by the Mustard Seed of Cape May County in conjunction with the Atlantic Cape Community College Foundation.

CCP will offer laptop computers and printers to eligible Cape May County students. The computer equipment will be on loan to students while they are enrolled in classes at Atlantic Cape and working toward a degree.

As an incentive for students to remain in school and earn a degree, students that complete their program of study and graduate, within three semesters of acceptance in the CCP, will be allowed to keep the computer equipment permanently. If the student withdraws from college without completing a degree, he or she will be required to return the laptop so it can be distributed to another eligible student.

Additionally, students participating in the Collegiate Computers Program will be required to work with a mentor. The mentor may be a volunteer from the community or a college representative. Mentors will provide individualized coaching and support. Students will also be asked to meet regularly with a college counselor who will review their academic records and help them make steady progress through their course work. Students must maintain full-time status and a minimum GPA of 2.0. Students will be dropped from the program and required to return the computer equipment if they are not in compliance with all program requirements.

**To be considered for participation in the Collegiate Computers Program, you must:**

- Must be a Cape May County resident
- Have a minimum GPA of 2.0
- Attach a letter of recommendation from a professor, academic counselor or community leader
- Demonstrate financial need
- File the Free Application for Federal Student Aid (FAFSA) and complete your financial aid file
- Be enrolled as a full-time student at Atlantic Cape Community College
- Have completed at least 30 credits
